## PROFESSIONAL SUMMARY

Results-driven Software Engineering student specializing in Data Science with practical experience in Python development, data analytics, and business intelligence. Proven ability to apply strong problem-solving skills, collaborate in team environments, and deliver efficient, scalable solutions aligned with industry standards.

## INTERNSHIP EXPERIENCE

### Elevate Labs – Software Intern | Sep 2025 – Nov 2025

- Built and optimized Python-based applications to support data-driven tasks.
- Applied analytical techniques to improve system efficiency and accuracy.
- Collaborated with mentors and peers to deliver milestone-based project outcomes.

### Upstricks – Python Intern | Jul 2024

- Developed reusable Python modules to meet project requirements.
- Actively participated in hackathons, contributing innovative technical solutions.
- Enhanced code performance through debugging, testing, and optimization.

### Cognifyz – Power BI Intern | Oct 2024

- Designed interactive Power BI dashboards to support business insights.
- Achieved a 20% reduction in operational costs through optimized reporting workflows.
- Translated raw data into actionable insights for stakeholders.

## EDUCATION

### NRI Institute of Technology, Vijayawada (Jun 2024 – Sep 2028)

B.Tech in Data Science | Autonomous Institution

### Narayana Junior College (Aug 2022 – Aug 2024)

M.P.C

## TECHNICAL SKILLS

Python, C, Java, Power BI, Data Analysis, SQL Basics, Problem Solving, Team Collaboration, Communication, Time Management

## CERTIFICATIONS

- Python Programming
- Salesforce Certified Specialist
- C Programming
- Infosys Certified
